The Smallest Details Make the Biggest Difference

Pacific Register brings a team of focused artisans dedicated to creating timeless elegance inside your home or office. We provide custom decorative registers, grilles and architectural elements to elevate the visual appeal and comfort of your living or workspace. We're committed to providing customers with precision crafted work and unmatched service to help put the final touches on any new or renovation project.

In 2001, Pacific Register recognized a need for quality decorative grilles. After decades of working in the HVAC industry, we took that knowledge and experience to manufacture grilles in any size and pattern thereby creating a unique product offering not available anywhere else. Since then, we have embraced state-of-the-art manufacturing technology to create custom decorative vent covers, grilles and ornamental accents to match and accentuate the distinct architectural style of any home.

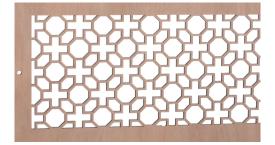

Pacific Register has the final touches you need to complete a new or renovation project. We manufacture products from metal, wood, plaster, and glass fiber reinforced concrete (GFRC) to meet the needs of architects, designers and contractors in all segments of the construction industry. Our manufacturing process allows us to quickly design, customize and configure products desired by our clients. You can trust Pacific Register to deliver the specific addition to compliment your unique style and design.

IT'S THE LITTLE THINGS THAT COUNT

Ask any home designer or general contractor - small details can make or break a project by enhancing the overall elegance and luxury of your space. Most people don't think twice about the type and style register they want for their home until after completing their space.

That's where Pacific Register comes in.

Our lightweight and durable cast aluminum registers match your decor while adding charm to the smallest details of your home. Made in the USA, we design our registers for a long lasting finish without warping or cracking. Available in multiple sizes and three patterns, our cast aluminum registers have a frame thickness of 3/16" and a 3/8" to 5/8" thick pattern area depending on size. Our registers fit perfectly in the floor, wall or ceiling.

CAST ALUMINUM VS. CAST IRON

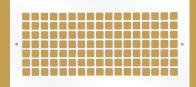

You may have found some companies use cast iron in your search for the perfect register. We use cast aluminum instead of cast iron for a number of reasons:

- Aluminum features significant weight savings over iron.
- Aluminum does not corrode or rust.
- Once powder coated or painted, you cannot tell the difference between the two.
- Cast aluminum matches the durability of cast iron.
- We provide a lifetime warranty for all of our cast aluminum registers.

Don't ruin a spectacular space with ordinary final touches. We manufacture fully customizable decorative registers and grilles made out of aluminum, steel, brass, wood, plaster, stone or concrete to match the unique space you wish to adorn. Matching vent covers to your specific style has never been easier!

With more than 70 design patterns, various material types, and numerous finish and color options, we offer endless design possibilities. State-of-the-art precision machines allow us to create any pattern you can dream up. Our custom approach ensures you will find the perfect pattern and color combination.

Metal Grilles

Aluminum and steel offer an excellent choice for architects and homeowners looking for sophisticated elegance and sustained durability. Our aesthetically appealing and sturdy metal grilles add a touch of style to any space and last the test of time. Use our custom cut lightweight aluminum grilles for durability on wall or ceiling applications while placing our steel registers, designed for weight bearing, on the floor.

Additional Color Options

Beyond our standard powder coating options we offer the full range of custom colors available from the Cardinal color palette. Contact us to discuss the many custom pattern, color and finish options available.

Brass Grilles

Looking for classic antiquity? Look no further than brass for the look and feel of a bygone era. Our rust-resistant and luxurious brass offers the perfect décor for finely lit homes and condos. We offer multiple finishes in various patterns, or design your own. Either way, our brass grilles add warmth and sophistication to any environment.

Applications

>Wall, Ceiling or Floor

Design

> Pick a Pattern, or Design Your Own See Available Patterns on Pages 15-28

Brass Options

Polished Nickel

Aged Brass

Satin Nickel

Pewter on Brass

Polished No Lacquer (may acquire patina with age)

Polished With Lacquer

Custom made to your size and specifications. Choose from one of our 70+ available patterns starting on page 15 or bring us your own design

Wood Grilles

Designed with sturdy craftsmanship and vintage style for rooms rich with the beauty of natural wood, our wood grilles complement the interior of any space. We offer a range of commonly available wood varieties and can acquire any type of wood upon request. Our classic designs enhance your architectural aesthetics and provide years of trouble-free operation.

Applications

> Wall, Ceiling or Floor

Wood Species & Options

Most common wood species for custom made to order wood products.

Paint Grade

> Maple

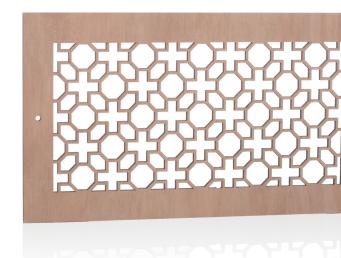

Stain Grade Premium Veneer

>Douglas Fir

Stain Grade

- >African Mahogany
 >Alder
- BirchCherry
- > Alger > Pecan
- > Red Oak
- > White Oak
- > Walnut
- > Cedar

For stain grade wood please indicate which direction, horizontal or vertical, you would like the grain to run.

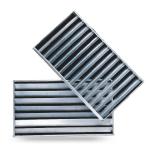

Custom made to order wood products are available in any wood species, in both paint and stain grades. We also accept customer-supplied wood.

Accessories

Directional Louvers

Directional louvers make you the ultimate authority in controlling the airflow. We paint our louvers black which position into the duct opening behind the grill for total concealment. Individual adjustable blades tailor to your needs for any space and upon order you can specify blades to run long way or short way.

Opposed Blade Dampers

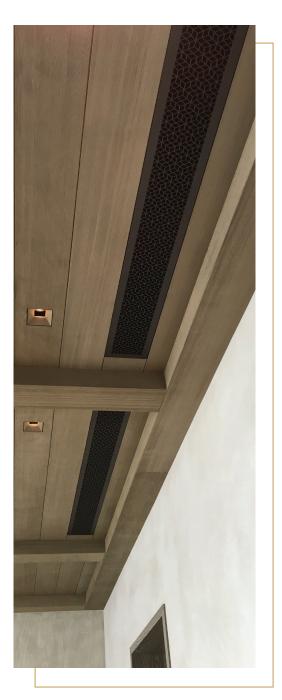

Too hot? Too cold? Not enough air flow? Opposed blade dampers fit securely into the duct opening and control the amount of airflow which you can adjust, as needed, with a simple screwdriver.

Flush Mount Frames

Flush mount frames enhance the look of our metal or wood registers with a touch of sophistication and elegance. Position the grille flush to the wall during the framing stage of your home or office construction.

Linear Bar Grilles & Linear Slot Diffusers

Linear Bar Grilles

Custom welded linear bar grilles are made to fit any duct size and are recommended for modern and minimalist-style homes. Standard frames install flush to the face of a finished wall surface while pre-drywall frames give a seamless look.

- Can be custom fabricated with various bar dimensions and spacing. Suggested bar sizes are 1/8" x 1/2" or 1/4" x 1/2"
- > Grilles can be easily detached from the frame using the supplied clips
- > Available in aluminum and brass
- Can be painted to match any wall color

Linear Slot Diffuser

Linear slot diffusers provide an alternative to vent covers for long duct openings. Made from welded aluminum, the diffuser installs flush to the surface of the wall or ceiling for a modern, minimalist look. Use these types of diffusers for new home construction and pre-drywall installation as opposed to retrofit applications. They fit great behind drywall, stone, wood planks, cement board, GFRC and other panels.

- >Available in 1", 1.5" and 2" widths
- >Welded Aluminum

Plaster & Concrete Grilles

Plaster or concrete grilles create a flush and borderless fitment requiring professional installation during the construction phase of the application wall. These grilles produce a timeless and alluring façade which come in any size, pattern and thickness to match the detailed requirements of any project. We also provide fiber-reinforced options for additional strength, if necessary.

Applications

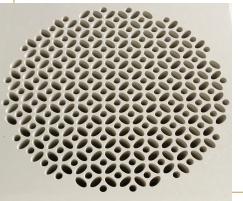

- > Interior Wall (Plaster)
- > Exterior Wall (Concrete)

Design

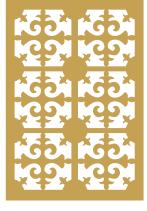

> Pick a Pattern, or Design Your Own See Available Patterns on Pages 15-28

CUSTOM PATTERN

Choose from our options or design your own. We'll help you create your own custom pattern.

Custom Work

Decorative Stair Risers

Take a sophisticated step with our stair risers which create the ideal unique design for any staircase. We custom design our stair risers to any length and pattern to meet your personal specifications in any number of finishes including black, oil rubbed bronze, or white, as well as unfinished.

> Plaster & Concrete Accents

Plaster and concrete accents fit seamlessly into your wall providing a custom designed decorative element inspiring the interior of any home. These beautiful additions give the appearance of a smooth design-detail artistically cut into a thick plaster wall. These custom made accents in any size and pattern require professional installation.

> Customer Supplied Stone

We can precision cut any design into most customer-supplied stone or tile to make HVAC grilles or drain grates that blend in perfectly with stone surroundings. Call our team of specialists with your plans - whether fully researched and designed on paper or simply an idea - to see how we can help you with your next project.

Decorative panels for indoor and outdoor use add a touch of class to any project including privacy screens, ceiling panels and railings made from aluminum, steel or wood. We customize to your specific size and requested patterns in a variety of colors to accentuate your desired outcome.

Decorative Panels & Screens

Laser Cut Metal Panels

Our laser cut metal panels function indoors or outdoors as room dividers or classy accents. Try weathered steel - a customer favorite - thanks to its rustic look for your patio or deck while powder coated aluminum panels, in your choice of color, function well as indoor or outdoor decorative panels or privacy screens.

> Custom Metal Ceiling Panels

Transform a standard ceiling into a piece of art with a custom ceiling aluminum panel available in any size and finish.

Laser Cut Wood Panels

Wood panels deliver a custom feel but most of all bring warmth into any area. Our full-size custom wood ceiling panels enrich upscale restaurants, hotel lobbies and luxury homes. Ideal for new construction or renovation projects, our wood panels can provide a finished elegance to every space.

> Aluminum Overlays

Aluminum overlays function best inside loft-style apartments, office lobbies, restaurants and retail stores as decorative accents or to create the feel of a larger space when used in conjunction with a mirror.

Decorative Metal Railings

Your balcony or upper level porch takes on new life with our laser-cut metal railing that establishes an exclusive style while ensuring the necessary safety of you and your guests.
